Since 1987, Clark Exploration Consulting has been providing geological consulting services in Ontario as well as in many other jurisdictions both in Canada and Internationally.

We are an innovative and dynamic company able to provide a full spectrum of mineral exploration consulting services. The wide range of skills on our staff allows us to provide additional services not normally attributed to exploration consulting companies such as turn-key I.T. solutions, exploration activity remediation as well as field and I.T. training. If we cannot provide an in-house solution we have a wide variety of industry partners and can find a solution that will meet or exceed your requirements.

Exploration experience in Ontario, Quebec, Manitoba, Saskatchewan, British Columbia, Newfoundland, New Brunswick, Northwest Territories, Nunavut, Nevada, Montana, South Dakota, Australia, Brazil, Mongolia, China, Rwanda, Sierra Leone and Suriname.

At Clark Exploration we maximize your exploration dollars increasing your chance of discovery. Our team is driven to provide quality and efficient work utilizing the latest techniques in exploration. Whether someone is looking for a custom I.T. solution or building a remote mineral exploration camp, working with our industry partners we can collaborate to provide our clients with the best possible commodity or task specific solution.

Competitive Rates
